# GoTranscript's latest feature - enterprise accounts

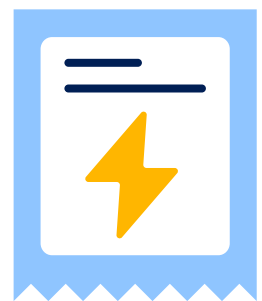

We designed this feature to save time and money for companies, institutions, and other collectives. The goal is to optimize the entire workflow for teams operating in different offices, groups with external associates or remote members, as well as users who share a single account.

Here are the key benefits of enterprise accounts:

- ✓ Setting up group pages and adding team members
- ✓ Easier order monitoring and management
- ✓ Sharing funds and guidelines between team members
- ✓ Creating spending limits for each team member

# Confidentiality

## Non-Disclosure Agreement

Our transcribers must sign a non-disclosure agreement to assure clients of our secure transcription or translation services.

## Transcription Confidentiality Process

All the transcription files are cut into small parts of 5-10 minutes. As a result, a whole file cannot be obtained by the same transcriptionist.

## Security

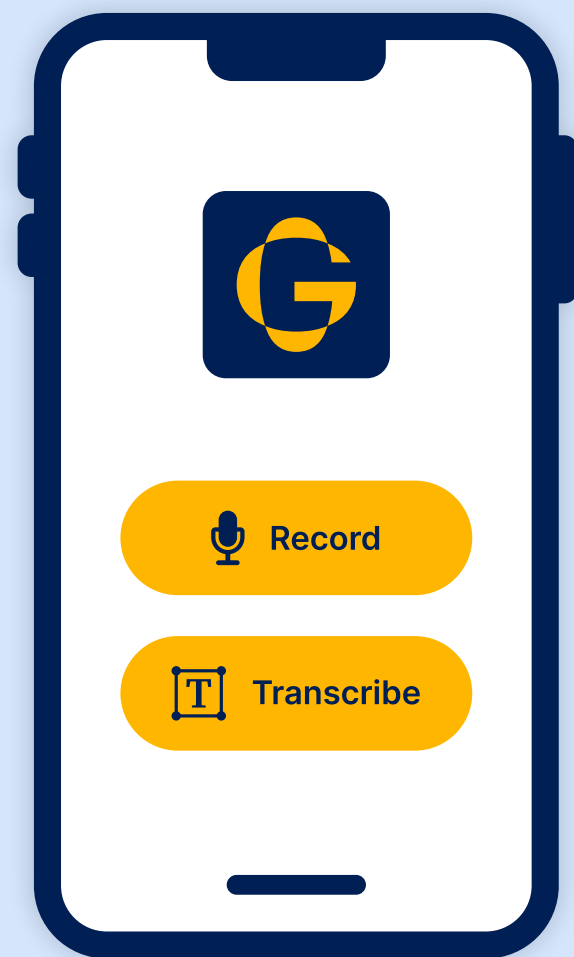

The actions of our transcriptionists are always monitored, so we can see which files are being worked on.

## Experience

We've transcribed and translated documents for open criminal cases as well as highly sensitive health records.

# Additional value

## Transcription app

Our convenient voice transcription app lets you record and transcribe with one program

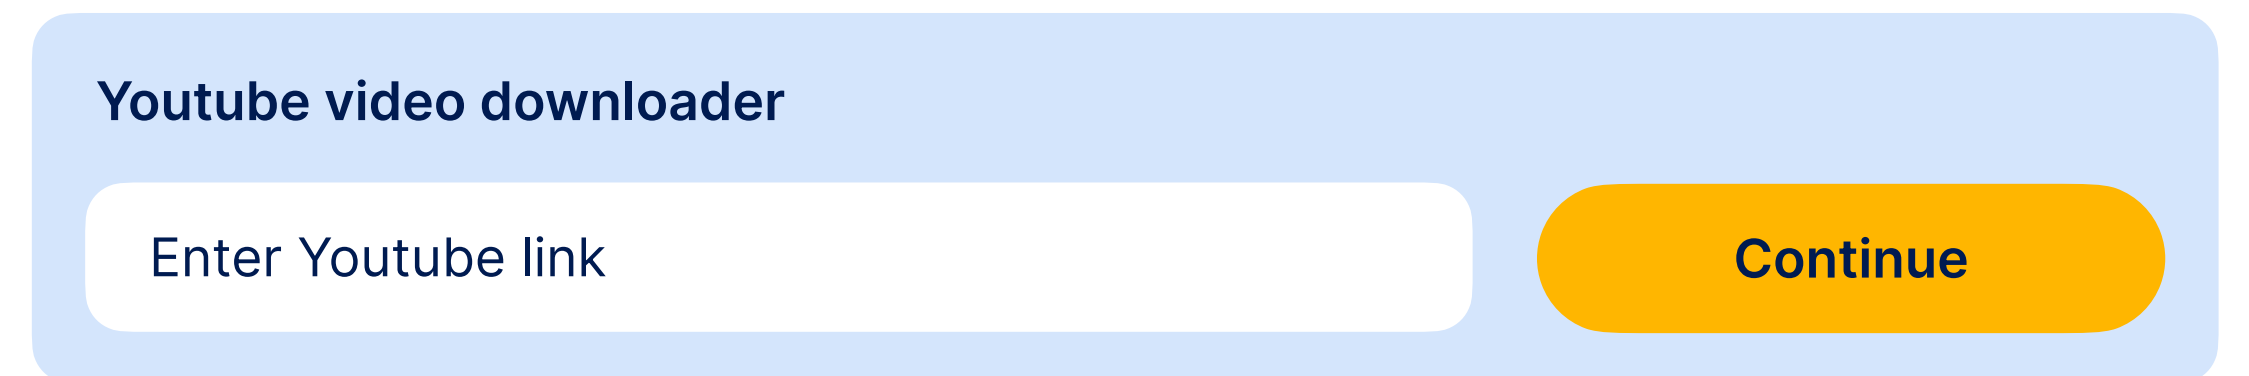

## Subtitle converter

Our clients are able to convert SRT files by themselves at their convenience. This is a great way to make your files more versatile!

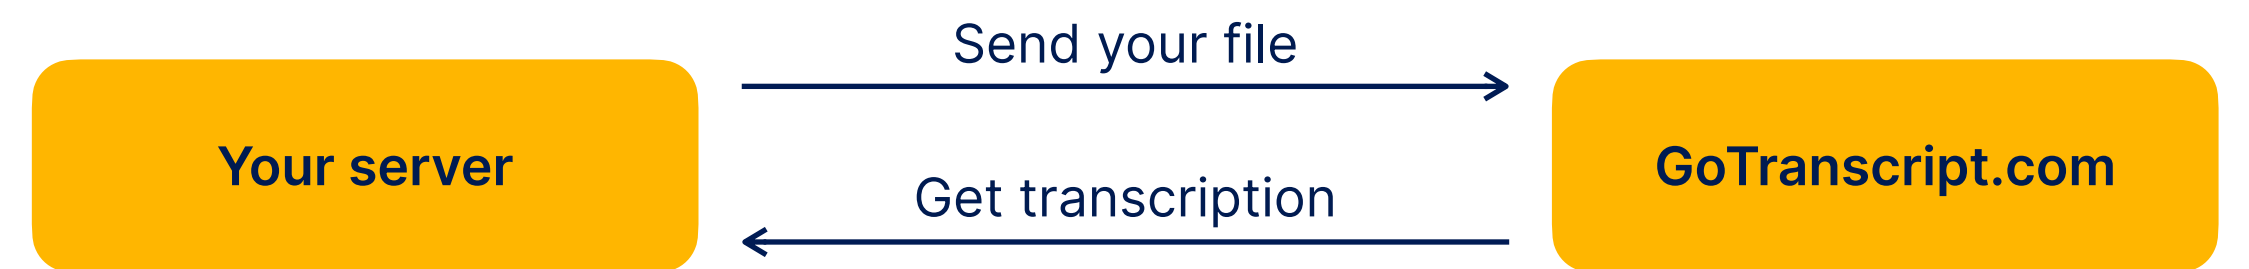

## Youtube video downloader

This free and fast converter allows you to watch your favorite YouTube videos offline on your PC, TV or almost any other device you'd like.

## Transcription and Captions API

- update work flows to make them quicker and more productive
- delivery of services and information is more flexible
- guarantees more fluid information delivery and an integrated user experience
